

DURING the last week Mr. Henry Greenebaum was tried in the United States District Court upon an indictment growing out of the management of the German National Bank, and acquitted. Mr. Greenebaum was President and active manager of two banks and of several banking firms. Under his strenuous efforts to maintain his institutions the accounts of all these concerns became somewhat involved, and out of these complications grew the accusations of misconduct. On the trial Mr. Greenebaum established to the satisfaction of the Court and jury that he was guiltless of any criminal intent in any of the varied transactions, and he was promptly acquitted. The untiring energy, the bold perseverance, and unbounded kindness of Mr. Greenebaum during his twenty-five years' life as a banker in this city had won for him an universal friendship, and the congratulations of his friends upon his acquittal were general and heartfelt.

A SUBSCRIBER asks "What is an agnostic, and what is agnosticism? I suppose it relates to some fase or kind of religious belief. The word is not in Webster's dictionary." If our correspondent had examined the Supplement to the latest edition of Webster he would have found what he wanted. An agnostic is there described as, "one who professes ignorance of theism or refrains from dogmatic assertion, and who neither affirms nor denies the existence of a personal Deity, for the reason that he cannot prove or disprove the assertion; and because of the necessary limits of the human mind, or because of the insufficiency of the evidence furnished by sychical and fysical data to warrant a positive conclusion; opposed alike to dogmatic skepticism and dogmatic theism." The above includes the definition of both words. In one sense, an agnostic is a nothingarian in theistical problems. There are many such people in the world.

THE agony of Moving-Day is over. The people of Chicago have changed places. A few days of settlement, repairing broken furniture, supplying broken crockery and mirrors, settling express bills, and every one will begin getting used to new neighbors, new locality, and the new régime, and stay fixed and contented until another Moving-Day comes, when the annual hubbub will begin again. Having moved, Chicago can now pay undivided attention to the wants of the thousands who are coming here this summer to transact business and enjoy her unrivaled advantages as the great summer resort of this country.
